ARCHIE VISITS THE STANLEYS

Comic book legend Stan Goldberg will be a special guest at the 26th Stanley Awards in Melbourne on November 6.

To celebrate the new Stanley Award for *Comic Book Artist*, **Stan Goldberg** will headline an impressive Stanleys conference with a talk about his illustrious comic art career and will conduct a master class to conference delegates. Proudly sponsored by *Copyright Agency Limited*, Stan is best known for his work as a flagship artist of *Archie Comics* and as a *Marvel Comics*' colourist, who helped design the original colour schemes of **Spider-Man**, **The Fantastic Four** and other major characters.

Joining Stan is renowned digital artist and caricaturist **Jason Seiler**. Jason will also talk about his art and will conduct a special *Wacom* workshop using the latest graphic technology.

And that's just the start! The two-day conference will also feature Australia's top cartoonists and experts in the fields of technology, law and, of course, cartooning.

ACA President **Jules Faber** is proud to have both Stan and Jason at The Stanleys, "*After the success of the 25th Stanleys in Sydney last year we're elated that the bar has been raised again in 2010. It's an honour to have Stan and Jason come Downunder and share their talents with us.*"

"*No cartoonist or comic book artist should miss out on these two legends. We hope to see you enter The Stanleys and make the trip to Melbourne for a great Stanleys weekend.*"
